## Objective

---

I am an Information Systems student at the Faculty of Computer Science & AI (Beni Suef University) and a Full Stack .NET Developer intern at DEPI. With prior hands-on experience building CRUD applications using ASP .Net Core MVC, I am now applying and expanding my skills on real-world projects. I am passionate about software development and actively seeking new challenges to continue my growth.

## Education

---

2022 - 2026	<b>Candidate for Bachelor of Computer Science and Artificial Intelligence</b> Beni-Suef University
-------------	-------------------------------------------------------------------------------------------------------

## Internship Experience

---

Aug 2024	<b>ITI Summer Training (.NET Full Stack)</b> Information Technology Institute (ITI) <ul style="list-style-type: none"><li>• Completed intensive summer training covering <b>SQL</b> (18 hours), <b>C# &amp; OOP</b> (24 hours), and <b>ASP .Net MVC</b> (30 hours).</li><li>• Achieved an evaluation score of 98%.</li><li>• Developed practical skills in <b>database management, object-oriented programming, and web application development</b> using the .NET Core</li></ul>
----------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

---

Jul 2024 - Sep 2024	<b>Frontend Basics</b> Mahara Tech <p>Learned the fundamentals of web front-end development using HTML for structure, CSS for styling, and JavaScript for interaction. Gained knowledge of responsive design to ensure usability across devices.</p>
Jul 2023 - Sep 2023	<b>Programming Fundamentals and Problem Solving</b> Beni-Suef University (Summer training) <ul style="list-style-type: none"><li>• <b>Topics Covered:</b> C++, C#, Object-Oriented Programming (OOP), Data Structures, Database Fundamentals (DB Design/SQL).</li></ul>

## Certificates

---

- Fundamentals of Programming and Problem Solving from BSU. [↗](#)
- Attendance of a workshop titled / Open Source Intelligence and Information Gathering Sources from BUSINESS SPIKE [↗](#)
- Learn HTML & CSS [↗](#)
- Database Fundamentals [↗](#)

## Skills

---

### Technical Skills:

- Microsoft SQL Server
- C++
- C#
- Object-Oriented Programming (OOP)
- LINQ
- ASP .Net MVC
- HTML5
- CSS
- JavaScript
- Python
- Django
- Microsoft Office (Excel, Word, Power Point)

### Soft Skills:

- Communication Skills
- Problem Solving
- Critical Thinking
- Time Management
- Attention to Detail
- Presentation Skills
- Fast Learner
- Personal Branding

## Languages

---

**Arabic** – Fluent

**English** – Basic  
B1 (Intermediate)
